# THE STUDY

## A STUDY THAT TESTED OUR GEL-CARE® ADVANCED FORMULA IN 2012

was proven to improve the condition of skin afflicted with Atopic Dermatitis (Eczema) both after 14 and 28 days of use. Significant improvements were seen in irritation, persistence, worry, appearance, frustration, embarrassment, annoyance, and depression.

**48%** Improvement to quality of life reported after 14 days

**70%** Improvement to quality of life reported after 28 days

GEL FORMULAS

### SCAR MANAGEMENT + QUERCETIN = 80587

Our Scar Management gel was found to effectively treat eczema in this study. Containing vitamin E, SymRepair, coconut oil and Coolact, it soothes and repairs damaged skin while diminishing scars and marks, regenerating skin cells, and boosting the overall quality and appearance of the skin.

**ECZEMA RELIEF 80579**

Containing all the elements of Scar Management gel **plus the added benefit of Quercetin**, our Eczema Relief gel further reduces inflammation, helps restore skin barrier function and hydration while reducing itching and water loss.

## The study participants identified our products as...

**COMFORTABLE TO WEAR**

**EASY TO APPLY; PRODUCT FLEXIBILITY**

**CLINICALLY PROVEN**

**REDUCED REDNESS**

**REDUCED SWELLING; REDUCED PAIN**

**FLARE REDUCTION**

**REDUCED SKIN DRYNESS**

## REAL PEOPLE, REAL RELIEF

**INFLUENCER AMARA HOWE:** "At first I was a little nervous about trying something new... The bandage is extremely tight around the arm which **really helps** to refrain from itching, the pressure doesn't just help physically, but mentally. The cooling gel underneath the bandage is **really soothing** too... when you take it off at the end of the day your arms feel **a lot smoother.**"
