

*Delivers key components required for scar and skin barrier repair.*

**Gel-Care® Advanced enriched sheeting delivers advanced ingredients that continue to treat the skin even after the sheet is removed.**

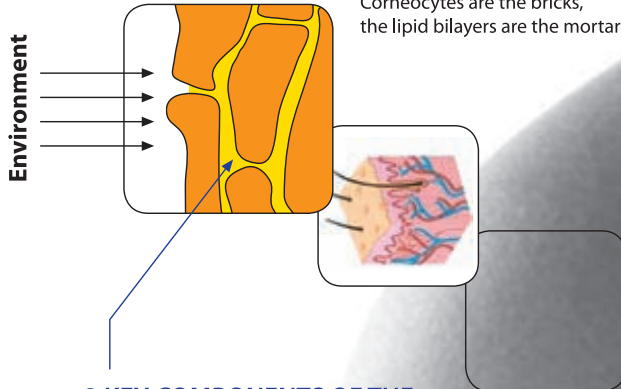

**THE SKIN**

Protects the body against:

- uncontrolled water loss
- penetration of harmful substances
- physical effects (mechanical stress, heat, radiation)
- chemical damage (e.g. by detergents)

**"Brick and Mortar" - Model** (P.M. Elias)  
Corneocytes are the bricks, the lipid bilayers are the mortar

**3 KEY COMPONENTS OF THE LIQUID BILAYER ("MORTAR")**

- Free fatty acids
- Cholesterol
- Ceramides

**SymRepair®**

Blend of lipids that the skin barrier needs:

**a highly effective skin barrier repair complex**

**PLUS**

**anti-irritant action**

**=> Protection and Repair:**

**SymRepair®**

**Additional Gel-Care® Advanced Ingredients Essential for Diminishing Appearance of Scars:**

**Coolact 38 D (p-methane 3, 8-diol):**  
Patented Dermal Promotion Absorption Agent.

**High Linoleic Acid (Safflower Oil):**  
Emollient lipid soothes the skin and helps restore the skin's barrier function.

**Retinyl Palmitate (Vitamin A):**  
Regulates epidermal development and modulates collagen synthesis.

**Tocopherol (Vitamin E) Acetate:**  
Antioxidant. Long established as beneficial to proper skin care.
